# **Now Is the Month of Maying: A Celebration of Spring and Madrigal Music**

Ah, May! The very word conjures up images of blooming flowers, verdant landscapes, and a general sense of joyful awakening. It's no wonder that composers throughout history have been inspired by this beautiful month, and perhaps no musical piece encapsulates this spirit quite like "Now Is the Month of Maying." This delightful madrigal, a

cornerstone of early music repertoire, is more than just a collection of notes; it's an invitation to revel in the exuberance of spring, a testament to the power of human connection, and a fascinating window into the world of Renaissance music.

## **The Enchantment of "Now Is the Month of Maying"**

Composed by Thomas Morley, a prominent figure in Elizabethan England's musical scene, "Now Is the Month of Maying" is a quintessential example of the English madrigal. Written around the late 16th century, it's a joyous, celebratory piece that perfectly captures the essence of springtime festivities. The title itself is a direct invitation to embrace the month of May, traditionally a time for dancing, feasting, and outdoor merriment.

The music is characterized by its bright, cheerful melody, its lively rhythm, and its clever interplay of vocal lines. Morley masterfully weaves together multiple independent melodies (what we call polyphony) to create a rich and harmonious texture. This complexity, however, never overshadows the sheer joy and accessibility of the piece. It's the kind of music that makes you want to tap your feet, hum along, and perhaps even break into a spontaneous dance.

## What is a Madrigal? Unpacking the Genre

Before we dive deeper into "Now Is the Month of Maying" itself, it's helpful to understand the context of the madrigal. Madrigals were a popular form of secular vocal music, typically for three to six voices, that flourished in Italy and then spread throughout Europe during the Renaissance. They were often polyphonic, meaning each voice had its own melodic line, and they were frequently set to poetry.

The key characteristic of a madrigal is its expressiveness. Composers aimed to convey the emotions and imagery of the text through the music. This is achieved through various techniques, such as word painting – where the music imitates the meaning of the words (e.g., a rising melodic line for "up," a descending one for "down," or a dissonant chord for "sorrow"). "Now Is the Month of Maying" is a prime example of this, with its joyful music perfectly mirroring the optimistic text.

## Thomas Morley: A Master of His Craft

Thomas Morley (c. 1557 – 1602) was a prolific composer, organist, and music theorist of the Elizabethan era. He was a student of William Byrd, another giant of English music, and went on to become a distinguished composer in his own right. Morley was particularly adept at writing madrigals, and his collections, such as "First Booke of Balletts" (1595),

which includes "Now Is the Month of Maying," were immensely popular.

His style is known for its clarity, its tunefulness, and its sense of gaiety. He was also instrumental in popularizing the ballett, a lighter form of madrigal often characterized by its fa-la-la refrains, which also featured prominently in his work. "Now Is the Month of Maying" is often cited as a ballett, showcasing Morley's skill in creating engaging and accessible vocal music.

For singers, conductors, and music enthusiasts alike, understanding the sheet music of "Now is the Month of Maying" unlocks a deeper appreciation for its enduring appeal and compositional brilliance.

## **The Genesis of a Spring Anthem: Thomas Morley and the Madrigal**

Thomas Morley (c. 1557–1602) was a pivotal figure in English music, a composer, theorist, and publisher who played a significant role in popularizing the madrigal in England. His prolific output spanned various genres, but it is his collection of ballets, published in 1595, that contains "Now is the Month of Maying." The ballet, a form of light-hearted, dance-like madrigal, was characterized by its clear, simple textures and often featured a recurring fa-la-la refrain, designed for more informal and social performance. "Now is the Month of Maying" stands out even within this collection for its immediate charm and accessible musical

language.

The historical context of the madrigal is crucial to understanding the sheet music. The late Renaissance was a period of burgeoning humanism and a renewed interest in classical antiquity, which translated into a desire for music that was expressive and accessible. Madrigals, with their focus on setting text expressively, often reflecting the nuances of poetry, were perfectly suited to this cultural climate. Morley's ballets, in particular, offered a more secular and jubilant alternative to some of the more complex and introspective Italian madrigals.

## **Deconstructing the Sheet Music: A Melodic and Harmonic Journey**

At its core, "Now is the Month of Maying" is a five-part madrigal, typically written for Soprano, Alto, Tenor I, Tenor II, and Bass. However, many arrangements exist, including popular four-part SATB versions, making it accessible to a wider range of ensembles. The sheet music reveals a carefully crafted composition that, despite its seemingly simple structure, exhibits sophisticated musical techniques.

### **Melody and Text Setting: A Perfect Marriage**

The opening melodic phrase, "Now is the month of Maying," is immediately memorable. It ascends in a stepwise motion,

mirroring the upward surge of spring's awakening. The rhythm is lively and syncopated, contributing to the overall feeling of exuberance. Morley masterfully aligns the musical phrases with the poetic meter, ensuring that the text is sung with clarity and naturalness. This attention to text setting is a hallmark of the Renaissance madrigal, and "Now is the Month of Maying" exemplifies this principle. Each syllable receives appropriate emphasis, and the melodic contours often reflect the emotional content of the words.

Consider the subsequent lines, such as "With a hey, and a ho, and a hey nonino." The repetition of "hey" and the jaunty "nonino" are set to quick, almost conversational melodic figures. This creates a sense of call and response, inviting participation and adding to the piece's engaging quality. The use of simple, stepwise melodic motion within each voice part makes it relatively easy for singers to learn and perform, contributing to its widespread popularity in educational settings and community choirs.

## **Harmonic Language and Chordal Textures**

While "Now is the Month of Maying" is predominantly diatonic, its harmonic language is rich and colorful. Morley employs a variety of imitative techniques, where melodic ideas are passed between different voice parts. This creates a sense of contrapuntal texture, where each line of music has its own independent melodic interest while

simultaneously blending with the others to create consonant harmonies. The predominant harmonic language is modal, with frequent use of cadences that clearly define the key center, often G major or a related mode.

The sheet music reveals the composer's judicious use of passing tones and suspensions to create moments of harmonic tension and release. These subtle dissonances, always resolving to consonant intervals, add depth and interest to the music without overwhelming its cheerful character. The fa-la-la refrain, in particular, is often characterized by its simpler, more chordal texture, providing a clear and memorable anchor for the listener and a welcome respite from the more complex imitative passages. This contrast in texture is a key element in the piece's overall structure and impact.

## **The 'Fa-la-la' Refrain: A Signature Element**

The "fa-la-la" refrain is arguably the most recognizable element of "Now is the Month of Maying." In the sheet music, these sections are often set with a more homophonic texture, meaning all the voices sing the same rhythm, creating a unified and powerful sound. The repetition of "fa-la-la" serves multiple purposes: it reinforces the cheerful, celebratory mood, provides a recurring motif that is easy to remember, and allows for a moment of unified vocal expression. This signature element is what truly elevates the

piece beyond a simple song and solidifies its place as a quintessential example of the English ballet.

The rhythmic vitality of the "fa-la-la" sections is also noteworthy. The steady pulse and the infectious rhythm encourage movement and dancing, further emphasizing the connection to spring festivals and joyous gatherings.

Analyzing the notation of these sections in the sheet music reveals the precise rhythmic values that create this irresistible propulsion.

## **Performance Considerations for 'Now is the Month of Maying' Sheet Music**

For conductors and singers, the sheet music for "Now is the Month of Maying" presents both opportunities and challenges. The accessibility of the melodic lines and the clear harmonic language make it a rewarding piece for choirs of all levels. However, achieving a truly nuanced and compelling performance requires attention to several key aspects:

### **Tempo and Rhythm: Capturing the Vivacity**

The tempo should be brisk and energetic, reflecting the joy of the season and the dance-like character of the ballet. However, it should not be so fast that the clarity of the text is sacrificed. The rhythmic precision of the syncopated

passages and the "fa-la-la" refrain is paramount. Careful attention to the notated rhythms will ensure the piece's characteristic bounce and verve.

### **Diction and Articulation: Bringing the Text to Life**

As with all madrigals, clear diction is essential. Singers should strive to enunciate each word distinctly, allowing the listener to fully appreciate Morley's clever text setting. Articulation should be light and crisp, particularly in the faster passages, to maintain the piece's airy and buoyant quality. The sheet music, with its phrasing marks and dynamic indications (though often minimal in original editions), provides guidance on how to shape the musical phrases.

### **Dynamics and Phrasing: Adding Expressive Nuance**

While early madrigal scores often lacked detailed dynamic markings, modern editions typically include them to aid interpretation. Conductors should explore a range of dynamics, from gentle crescendos to playful diminuendos, to add expressive depth. The phrasing should follow the natural contours of the melodic lines, highlighting the expressive qualities of the text. The imitative passages require careful attention to balance between voices, ensuring that the melodic lines emerge clearly.

## **Vocal Blend and Intonation: The Quintessential Madrigal Sound**

Achieving a beautiful vocal blend is crucial for any choral music, but it is particularly important in madrigal singing. The voices should merge seamlessly, creating a rich and unified sound. Impeccable intonation is also vital, as the clear harmonic progressions rely on accurate pitches. The sheet music serves as the roadmap, but the singers' ears are the ultimate guide to achieving these musical ideals.

## **Variations and Arrangements: Extending the Legacy**

The enduring popularity of "Now is the Month of Maying" has led to countless arrangements for various ensembles, including instrumental versions, arrangements for solo voice with piano accompaniment, and adaptations for younger choirs. These adaptations, while deviating from the original five-part a cappella form, often retain the essence of Morley's joyous melody and harmonic structure. When encountering these arrangements, it's beneficial to consider how the original sheet music has been adapted and what elements have been preserved or modified.

## **Conclusion: A Timeless Celebration in Sheet Music Form**

The sheet music of Thomas Morley's "Now is the Month of Maying" is a portal into a moment of pure musical joy and a testament to the enduring power of spring.
