of the list. John Green isn't just a novelist; he's a curator of thoughts, a chronicler of the quirky, and an architect of the relatable. His "lists" – whether found in blog posts, essays, video essays, or even subtly woven into his novels – are not mere bullet points. They are windows into his mind, offering glimpses of his intellectual curiosity, his dry wit, and his deep empathy. This article delves into the world of lists written by John Green, exploring their significance, their recurring themes, and why they resonate so powerfully with his audience.

The Genesis of John Green's Lists: From Vlogbrothers to Literary Landscape

To truly understand the evolution of John Green's lists, we must journey back to the origins of his online presence. Alongside his brother Hank, John co-founded the YouTube channel Vlogbrothers in 2007. This platform became a fertile ground for their unfiltered thoughts, discussions, and, you guessed it, lists. Their early videos often featured "Top 10" or "5 Things" segments, laying the foundation for his later explorations in written form. These early YouTube lists were raw, unpolished, and incredibly authentic. They tackled everything from the mundane (e.g., "Top 10 Things I'm Afraid Of") to the philosophical (e.g., "5 Things I Learned This Week"). This early experimentation in list-making allowed John to hone his voice, develop his signature blend of humor and introspection, and connect with a global community of "nerdfighters." This DIY approach, born from the early days of online video, has undoubtedly influenced the way he crafts his written content, imbuing it with a sense of directness and personal connection.

Recurring Themes in John Green's Lists: A Tapestry of the Human Experience

What makes John Green's lists so compelling? It's their remarkable ability to tap into universal human experiences, often through a lens of gentle humor and profound observation. While the specific topics might vary, several recurring themes emerge, offering a consistent thread throughout his work.

The Absurdity and Wonder of Everyday Life

One of the most prominent themes in John Green's lists is his fascination with the often-overlooked details of daily existence. He finds humor and poignancy in the mundane, reminding us that wonder can be found in the most unexpected places. Think of a list titled "10 Things I Love About Grocery Shopping" or "5 Reasons Why Socks Are Mysteriously Disappearing." These seemingly trivial topics are transformed through Green's perspective into explorations of human behavior, our relationship with consumption, and the quiet mysteries that surround us. This penchant for finding the extraordinary in the ordinary is a hallmark of his writing, both in his novels and his non-

fiction.

The Nuances of Human Connection and Relationships

Unsurprisingly, given the emotional depth of his novels, human connection and relationships are a constant wellspring for John Green's lists. He often delves into the complexities of friendship, familial bonds, and romantic entanglements, offering candid reflections on what makes these connections work (and sometimes, what makes them fall apart). Lists like "7 Ways to Be a Better Friend" or "The 5 Stages of Caring About Someone Too Much" speak to the universal desire for belonging and the challenges we face in navigating our social worlds. These lists are not prescriptive; they are observational, inviting readers to reflect on their own experiences.

Existentialism, Mortality, and the Search for Meaning

While he approaches these heavy themes with his characteristic wit, John Green is unafraid to confront the big questions. His lists often touch upon mortality, the search for meaning, and the inherent anxieties of existence. A list such as "10 Things I've Learned About Death" or "The 5 Most Terrifying Existential Questions" might seem daunting, but Green's approach is always one of thoughtful exploration rather than morbid fascination. He uses these lists to process his own contemplations and, in doing so, offers readers a sense of shared vulnerability. This can be seen as a direct extension of the philosophical underpinnings of his novels, like **The Fault in Our Stars** and **Looking for Alaska**.

The Joys and Pains of Adolescence and Growing Up

As the author of some of the most beloved young adult novels of our time, John Green's lists frequently circle back to the tumultuous and transformative period of adolescence. He understands the awkwardness, the intensity of emotions, and the profound sense of self-discovery that defines these years. Lists like "5 Things I Wish I Knew When I Was 16" or "The 7 Stages of Teenage Awkwardness" resonate deeply with both young readers and adults who remember their own formative experiences. He captures the essence of youthful yearning and the often-painful process of becoming oneself.

John Green's lists are scattered across various platforms, each offering a unique entry point into his diverse body of work. Understanding where to find them is key to appreciating the full spectrum of his thought.

Vlogbrothers: The Origin Story

As mentioned earlier, the Vlogbrothers YouTube channel remains a primary source for many of John Green's earlier lists. Their prolific output of videos over the past decade-

plus has generated countless list-based segments. While they might not always be formally titled "lists," the structure and content often lend themselves to that categorization. Searching their extensive archive for topics of interest will undoubtedly uncover a wealth of these gems.

John Green's Personal Blog and Essays

Beyond YouTube, John Green has maintained a personal blog, and his essays have appeared in various publications. These written pieces often feature more developed and reflective list-like structures. He might present a "brief guide" or a series of "observations" that function as extended lists, allowing for more in-depth exploration of a topic. These essays provide a deeper dive into his thinking, offering a more polished and introspective perspective compared to his earlier vlogs.

Literary Works: Subtlety and Structure

While not explicitly labeled as "lists," the structural elements and thematic explorations within John Green's novels often echo the spirit of his list-making. He has a knack for organizing information and presenting complex ideas in digestible, often memorable ways. The recurring motifs, the character's internal monologues that often feel like curated thoughts, and even the narrative arcs themselves can be seen as a form of sophisticated, embedded list-making. For example, the internal struggles and philosophical musings of characters like Augustus Waters in **The Fault in Our Stars** can be interpreted as a deeply personal, albeit fictionalized, list of life's most pressing questions.

The "An Absolutely Remarkable Thing" Connection

It's worth noting that while Hank Green has explored the concept of viral internet fame in his novel **An Absolutely Remarkable Thing**, John Green's approach to lists is more about personal curation and thoughtful reflection rather than algorithmic trends. His lists are driven by genuine curiosity and a desire to connect, rather than by a pursuit of virality.

The Enduring Allure: A Deep Dive into John Green's

Iconic Lists

John Green. The name itself evokes a generation of readers, a particular brand of heartfelt, intelligent, and often poignant storytelling. While his novels are undoubtedly the cornerstones of his literary legacy, a significant, albeit less formally recognized, aspect of his creative output lies in his masterful use of lists. From character quirks to existential ponderings, Green's lists are not mere narrative devices; they are intricate windows into his characters' psyches, potent tools for conveying complex emotions, and surprisingly effective ways to engage readers. This article delves into the world of 'lists written by John Green,' exploring their significance, analyzing their function, and understanding why they continue to resonate so deeply with his devoted fanbase.

Why Lists? The Power of Structured Vulnerability

In a medium as fluid and narrative-driven as fiction, the imposition of a list format might seem counterintuitive. However, John Green wields this structure with exceptional skill. Lists, by their very nature, demand organization and categorization. When applied to the chaotic inner lives of his characters, they create a fascinating tension. This structured vulnerability allows readers to grasp complex emotional landscapes in a digestible, yet impactful, manner. Think of it as peeling back layers of an onion, with each item on the list representing a distinct facet of a character's

personality, their fears, their desires, or their observations about the world.

Furthermore, lists can amplify a sense of obsession or intense focus. When a character creates a list, it often signifies an attempt to exert control over something overwhelming, or a deep preoccupation with a particular subject. This can be a powerful indicator of their mental state, offering subtle clues to their motivations and internal struggles. The inherent rhythm and repetition of a list can also be hypnotic, drawing the reader deeper into the character's thought process.

Key Examples and Their Impact: Tracing the List's Evolution

The most celebrated examples of John Green's lists are often found within the pages of his most beloved novels. Let's examine a few pivotal instances:

The "Favorite Things" List in *An Abundance of Katherines*

In his debut novel, *An Abundance of Katherines*, the protagonist Colin Singleton's obsession with former girlfriends named Katherine leads him to create a comprehensive list of his "Top 19 Most Devastating Breakups." This early use of a list is more than just a quirky character trait. It's a manifestation of Colin's analytical, pattern-seeking mind, desperately trying to find logic and order in the messy realm of romantic

relationships. The sheer detail and specificity of the list, with its rankings and justifications, highlight his intellectual but emotionally stunted approach to life. This list serves as an introduction to Green's recurring theme of characters attempting to intellectualize their way through emotional turmoil.

Miles Halter's "Great Perhaps" in *Looking for Alaska*

Perhaps one of the most iconic lists in John Green's bibliography is Miles Halter's fascination with the dying words of famous people, particularly his quest to understand the meaning behind François Rabelais' "I go to seek a Great Perhaps." This isn't a formal list in the traditional sense, but the recurring motif of seeking and cataloging these final pronouncements functions as a list-like exploration of mortality and the unknown. Miles's internal "list" of these profound last words reflects his burgeoning existential awareness and his desire to grapple with the big questions of life and death. The "Great Perhaps" itself becomes a conceptual list item, a promise of future possibility and a stark reminder of the finite nature of existence. Readers connect with this because it taps into universal anxieties about legacy and the afterlife.

Hazel Grace Lancaster's Existential Catalog in *The Fault in Our Stars*

No discussion of John Green's lists would be complete

without mentioning Hazel Grace Lancaster. While she doesn't explicitly create a single, lengthy list in the novel, her narration is punctuated by her sharp, observational lists that reveal her profound intelligence and her pragmatic, yet deeply emotional, perspective on life. Her musings on the nature of illness, the absurdity of the world, and the small moments of beauty often take on a list-like quality. For instance, her internal contemplations about the "eggshell" metaphor for people with cancer, or her sharp observations about the performances of Augustus Waters, function as fragmented lists that build a rich portrait of her inner world. These lists, however brief, are imbued with the weight of her experience, making them incredibly moving. The raw honesty of her observations, often tinged with dark humor, makes her relatable to millions.

Pudge's Attempts to Define Life in *Looking for Alaska*

While Miles's interest in "Great Perhaps" is a prominent theme, it's worth noting that Pudge's journey in *Looking for Alaska* is also characterized by a desire to catalog and understand life. His attempts to define "revenge" and his observations about the labyrinthine nature of the boarding school's social dynamics can be seen as proto-lists, the early stages of his attempt to make sense of a world that often feels nonsensical. These early, less structured lists foreshadow his later,

more profound engagements with existential questions.

Thematic Significance: Beyond the Page

John Green's lists are more than just stylistic flourishes; they are integral to the thematic core of his novels.

They serve several crucial functions:

- 1. Character Development:** Lists provide a unique avenue for revealing character. The **types** of things a character chooses to list, the **way** they list them, and the **order** in which they appear all offer invaluable insights into their personality, their priorities, and their deepest fears. A list of "Things I'm Afraid Of" will reveal far more than a simple statement of fear.
- 2. Exploration of Complex Themes:** Green often tackles profound themes such as mortality, love, loss, mental health, and the search for meaning. Lists can distill these abstract concepts into tangible points, making them more accessible and impactful for the reader. A list of "Ways to Cope with Grief" is more concrete than a general discussion of sadness.
- 3. Humor and Relatability:** Green masterfully injects humor into his work, and lists are a prime vehicle for this. The absurdity of certain items on a list, the unexpected juxtapositions, or the sheer over-the-top nature of a character's cataloging can elicit genuine laughter. This humor, however, often serves to underscore the poignancy of the situation, creating a powerful emotional resonance. The relatability comes

- from recognizing our own tendencies to try and categorize and understand the world around us.
4. **Pacing and Engagement:** Lists break up dense narrative prose, offering moments of pause and reflection. They can also build anticipation, as readers wonder what the next item on the list will be. This rhythmic quality can keep readers engaged and invested in the story. The short, punchy nature of list items is inherently scannable and digestible.
 5. **Meta-Commentary on Storytelling:** In some instances, Green's use of lists can be seen as a subtle meta-commentary on the act of storytelling itself. By presenting information in a structured format, he draws attention to the choices involved in shaping a narrative and revealing character. This often appeals to a more literary-minded reader.

The "Listicle" Generation and John Green's Legacy

In an era saturated with online "listicles" - easily digestible articles that present information in list format - John Green's sophisticated use of lists feels both prescient and timeless. He was employing this technique with depth and artistry long before it became a ubiquitous online trend. His lists are not mere clickbait; they are integral components of compelling narratives that explore the human condition with empathy and intelligence. The enduring popularity of his novels, and the continued fascination with his characters' inner lives, speaks volumes about the

power of well-crafted lists to connect with readers on an emotional and intellectual level. His influence can be seen in the work of many contemporary YA authors who are inspired by his ability to blend complex themes with accessible storytelling techniques.
