Understanding the Low Carb Plate:

What to Embrace

When we talk about low-carb diet recipes UK, we're focusing on a plate brimming with delicious and satisfying components.

Think:

Protein Powerhouses

Protein is your best friend on a low-carb diet. It's satiating and plays a vital role in muscle repair and growth. In the UK, we're spoiled for choice:

1. **Meats:** Beef (steak, mince), lamb, pork (chops, belly), chicken (breast, thighs), turkey. Look for quality, free-range options where possible.
2. **Fish:** Salmon, mackerel, trout, sardines, cod, haddock,

prawns, mussels. Oily fish are particularly beneficial due to their omega-3 fatty acid content.

3. **Eggs:** A versatile and affordable staple.

Healthy Fats for Fuel

Fat is not the enemy! In fact, healthy fats are crucial for hormone production, nutrient absorption, and keeping you feeling full. Key players include:

1. **Oils:** Olive oil (extra virgin is best), coconut oil, avocado oil.
2. **Nuts & Seeds:** Almonds, walnuts, chia seeds, flaxseeds, pumpkin seeds.
3. **Avocado:** Creamy, versatile, and packed with goodness.
4. **Dairy:** Full-fat cheese, butter, cream (in moderation).

Vibrant Low-Carb Vegetables

This is where you can really load up your plate with colour and nutrients. Focus on non-starchy vegetables:

1. **Leafy Greens:** Spinach, kale, rocket, lettuce, Swiss chard.
2. **Cruciferous Vegetables:** Broccoli, cauliflower, Brussels sprouts, cabbage.
3. **Other Favourites:** Asparagus, courgettes (zucchini), peppers, mushrooms, green beans, aubergine (eggplant), onions, garlic.

What to Limit (Not Necessarily Eliminate Entirely!)

The "low" in low-carb is relative, but generally, you'll want to significantly reduce or limit:

1. **Grains:** Bread, pasta, rice, oats, couscous.
2. **Sugary Foods:** Sweets, cakes, biscuits, sugary drinks, most processed snacks.
3. **Starchy Vegetables:** Potatoes, sweet potatoes, parsnips, peas, corn.
4. **Most Fruits:** While fruits are healthy, they can be high in natural sugars. Berries are often a more moderate option for low-carb diets.
