| 1              | Where did the story of the 'Irish race' truly begin?                                          | The concept of a distinct 'Irish race' is more a product of historical narrative and cultural identity than a strict biological classification. Its roots can be traced back to early myths and legends about the settlement of Ireland, such as the Milesians, and later through the lens of Gaelic traditions and a sense of shared heritage that developed over centuries. |
| 2              | How have invasions and migrations shaped the genetic and cultural makeup of the Irish people? | Ireland has experienced numerous waves of migration, including the Celts, Vikings, Normans, and English. These stories created a sense of shared ancestry and a mythical origin that became deeply ingrained in the cultural identity of the Irish people.                                                                           |
