Laying the Foundation: Pre-Reading Activities for Number the Stars

To set the stage for a meaningful reading experience, it's crucial to introduce students to the historical and social context of the novel before they even turn the first page. This pre-reading phase is vital for understanding the stakes and the characters' motivations.

Introducing World War II and the Nazi Occupation

Students don't need to become history scholars overnight, but a basic understanding is essential. Consider these activities:

1. **Brief Overview of WWII:** Use age-appropriate resources (videos, simplified timelines, interactive maps) to explain the major players and the general timeline of World War II. Focus on the European theater.
2. **The Nazi Party and Ideology:** Explain in simple terms what the Nazi party stood for, emphasizing their discriminatory policies, particularly against Jewish people. This can be done through age-appropriate presentations or guided discussions.
3. **Life in Occupied Denmark:** Discuss what it means for a country to be occupied. Show images or videos depicting life in Denmark during the 1940s, highlighting the presence of German

soldiers and the impact on daily life.

4. **The Danish Resistance Movement:** Introduce the concept of resistance and how ordinary citizens took extraordinary risks.

This will set the stage for the brave actions depicted in *Number the Stars*.

Creating anticipation for the novel is also key. You might use a "curiosity journal" where students jot down questions they have about the era or the title itself.

Sparking Curiosity About the Title and Themes

The title, *Number the Stars*, is itself a source of intrigue. Leverage this:

1. **Title Exploration:** Ask students to brainstorm what the title might mean. What does "numbering" things imply? What about "stars"? Connect this to the idea of identifying and persecuting people.
2. **Vocabulary Preview:** Introduce key vocabulary that might appear in the book, such as "occupation," "resistance," "rationing," "underground," "synagogue," and "Holocaust" (with appropriate sensitivity and age-level explanation).
3. **Personal Connections:** Engage students in discussions about bravery, fear, and friendship. Ask them to think about times they've been scared or times they've supported a friend. This builds personal relevance.

These initial steps ensure that when students begin reading, they

have a framework for understanding the narrative and its significance. A good **Number the Stars book study** starts here.

During the Reading: Engaging with the Narrative

Once students are immersed in the story, the goal is to deepen their comprehension, critical thinking, and emotional engagement. This is where the core of your **Number the Stars unit plan** comes alive.

1. **Reading Logs/Journals:** Encourage students to keep reading logs. They can record key events, character developments, interesting quotes, and their personal reactions or questions.
2. **Comprehension Questions:** Develop a set of questions for each chapter or section. These should move from basic recall to inferential and analytical thinking. Examples:
 1. "What is Annemarie's initial reaction to the German soldiers?"
 2. "How does Annemarie's perspective on her sister Kirsti change throughout the story?"
 3. "What are some of the risks the Johansen family takes to help Ellen?"
 4. "Why is it important for Annemarie to be brave, even when she

is scared?"

3. **Character Study:** Focus on the development of key characters like Annemarie, Ellen, Kirsti, Mr. Johansen, Mrs. Johansen, and Peter. Use graphic organizers to track their traits, motivations, and changes.
4. **Plot Development:** Help students identify the rising action, climax, and falling action of the story. Discuss the turning points and how they impact the characters.

 4. The role of ordinary people in extraordinary times
 5. Hope and resilience in the face of adversity

4. **Imagery:** Discuss the vivid descriptions that help students visualize the setting and emotions.
