evolution, and its profound impact on generations of men and the wider world.

The Genesis: A Need for Brotherhood and Advancement

The year was 1906. Cornell University, a prestigious institution in Ithaca, New York, was a far cry from being a welcoming environment for African American students. Facing pervasive racism and social isolation, a group of seven visionary young men recognized a pressing need for a supportive brotherhood, a space where they could foster academic excellence and personal growth. These seven distinguished founders, later revered as the "Seven Jewels," embarked on a journey that would forever alter the landscape of African American fraternal life.

The initial spark for Alpha Phi Alpha was ignited by a desire for something more than mere social camaraderie. These pioneering individuals sought to create an organization that would not only provide a sense of belonging but also actively champion the intellectual, moral, and social uplift of Black men. The idea of a fraternity that prioritized scholarship and dedicated itself to the betterment of its members and the broader Black community

was revolutionary for its time. This commitment to "Man's Inner Worth and Character" would become a foundational principle.
